DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 4, drawn to a method of converting equatorial coordinate data, classified in class 434, subclass 286.
 - II. Claims 5, 9 and 10, drawn to a catalogue of ecliptic coordinate positions, classified in class 434, subclass 286.
 - III. Claims 6-8, drawn to a method of aligning zodiac signs, classified in class 434, subclass 106.
 - IV. Claims 11-13, 15-20, 23, 24, 27, 29 and 30, drawn to methods of creating astrological data, classified in class 434, subclass 106.
 - V. Claim 14, drawn to a method of converting time and location data to local sidereal time, classified in class 368, subclass 15.
 - VI. Claims 21 and 22, drawn to an astrological chart, classified in class 434, subclass 106.
 - VII. Claims 25, 26, 31 and 32, drawn to tarot cards and related methods, classified in class 434, subclass 106.
 - VIII. Claim 28, drawn to a computer merchant server system, classified in class 707, subclass 4.

Art Unit: 3712

IX. Claim 33, drawn to a book of astrological information, classified in class 434, subclass 106.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I - IX are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are different types of apparatuses and methods having different functions and purposes. While many of the inventions are with the field of astrology, the inventions are directed to different aspects of that field.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for each Group is not required for each of the other Groups, restriction for examination purposes as indicated is proper.

5. A telephone call was made to David Andrew D'Zmura on August 30, 2002, but did not result in an election being made

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
